

Product information

Composite

Cleaner 8004

FEATURES

- Effective on semi-permanent release agents
- Effective on resin residues

COMPOSITION

- Mixture of hydrocarbon solvents

Cleaner for moulds based on a special mixture of hydrocarbon solvents, particularly effective in removing residues of release agents and resins.

APPLICATIONS

- Designed for the removal of semi-permanent release agents.

TYPICAL PROPERTIES

This data does not constitute the Product Sales Specifications. The values indicated refer to typical properties and are not to be understood as extreme minimum or maximum values. They do not constitute a guarantee of product conformity and do not relieve the buyer from the need to test the suitability of the products before use or placing them in his production cycle. Please contact your local sales representative to obtain the product specifications.

Property	Unit	Value
Color (Part A/Part B)	Visual	Colorless
Density at 23°C (Part A/Part B)	g/cm ³	0.934
Viscosity	mPa.s	<15
Solvents		hydrocarbons
Flash point	°C	<23
Shelf life	months	12

USE

Apply the cleaner with a cotton cloth and wipe to remove residue from the mold. In the presence of hard residues, apply abundantly with a damp cloth or with a rigid natural bristle brush. Let it sit for a few minutes to allow the cleaner to penetrate and dissolve the residue. Dry with a clean cotton cloth. Multiple applications may be required for complete cleaning of the molds.

HANDLING PRECAUTIONS

The information for a correct and safe handling of the products is contained in the safety data sheet. Consult the safety data sheets before use for complete information on the risks to health and the environment and for the suitable protective devices to be adopted. Share the safety data sheets with all staff involved in the use of the products.

USABLE LIFE - STORAGE

Store in the hermetically sealed original container and limit the opening and closing times of the container during

collection. Store at temperatures between + 5 ° C and + 35 ° C. The product, if stored in its original sealed packaging and in the specified storage conditions, has a shelf life of 12 months from the date of manufacture.

PACKAGING

The components are supplied in 3,4kg containers. For other packaging please contact our sales department.

LIMITATIONS

This product is neither tested nor represented as suitable for food contact, skin contact or medical uses.

LIMITED WARRANTY

The information contained in this document is offered in good faith based on Chemix research and is believed to be accurate. However, as the conditions and methods of use of our products are beyond our control, this information should not be used as a substitute for the

tests that customers must first perform to ensure that Chemix products are fully satisfactory for their specific applications. The warranty is only applicable to the values indicated in the Product Sales Specifications. The sole and exclusive compensation for products with values that are out of specification is limited to the replacement of the product or the refund of the purchase price.

Chemix disclaims any other explicit or implicit guarantee referring to the suitability of the Products in specific user's applications.

Chemix disclaims any liability for incidental or consequential damages resulting from the use of the Product.
